

CORPORATE ENVIRONMENTAL POLICY

The objective of this Corporate Environmental Policy is to issue a clear statement from our intentions and principles in relation to our overall environmental performance, providing a framework for action and for the setting of our environmental objectives and targets.

Environmental Policy Commitments

We at Agromillora are committed to develop Environmental projects, initiatives, and objectives in all our relevant operations including external (upstream and downstream) and our own internal ones.

We are engaged, as Participant of the United Nations Global Compact, fully supporting the Sustainable Development Goals.

We have the determination to lead continual improvement to enhance our corporate environmental performance, considering the following specific commitments:

- 🍃 To Protect the Environment and giving special considerations to:
 - Climate Change
 - Responsible water management
 - Biodiversity and Genetics
 - Responsible Consumption of Energy & Natural Resources
 - Circular Economy (waste)
 - Pollution
 - Any other material topic identified by key internal and external stakeholders
- 🍃 To fulfil legal and compliance obligations regarding protection of Environment.
- 🍃 To fulfil Risk Management Initiatives, to:
 - Caution of actions that may involve an environmental risk
 - Promote prevention measures to avoid Environmental incidents
 - Develop corrective actions in the event of an Environmental Issue
- 🍃 To achieve the right level of workers Environmental competences and consciousness by providing appropriate training and education.
- 🍃 To protect the customers Health & Safety by providing products and services to be safe for our customers and the Environment.
- 🍃 To promote environmental services and advocacy at any stakeholder's level, promoting awareness and consciousness of Environmental topics, risks, and initiatives in our internal and external communication.
